

# CHAMBER MEMBER SPOTLIGHT

We're Shining the Chamber Spotlight On:

*Buzzin' Bees Learning Center*

## History

Buzzin' Bees Learning Center was initially an after-school program assisting children with homework, math, reading, computer labs, and tutoring. "I had already opened Busy Bee Academy, and several parents expressed a need for help with reading and homework," says owner and director Dr. Valerie T. Wood. "I also wanted to be a blessing to our downtown community! The daycare blossomed from the after-school program, as we had a need to care for more 3- and 4-year-olds".

Buzzin' Bees provides quality childcare in a creative environment where each child can grow emotionally, intellectually, socially, and physically through exploration and discovery. Buzzin' Bees also provides music and Spanish classes weekly, as well as field trips, PTO, King & Queen contests, prom/sneaker balls, graduations, Black History and Christmas programs to name a few!

When asked about her favorite part about her profession, Dr. Wood said, "My favorite part is transforming the children's lives and building relationships with the families. It is such a blessing when parents tell me how well their child is doing in school after graduating from Buzzin' Bees; "Buzzin' Bees — Buzzin' to the Future of Knowledge".

Contact Buzzin' Bees Learning Center for your childcare needs!
